cool!

High-quality compressor

Provide more stable power for reliable operation by adopting international famous brand high-quality compressors.

CHARACTERISTICS

Fast cooling

Auto-restart

Low noise

fri kool

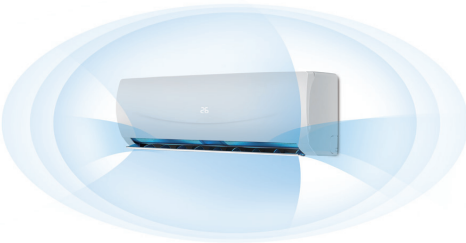

Fast cooling

The air conditioner runs at a high frequency to achieve 30-second fast cooling.

4D air supply

The all-round air-swing design can achieve a wide range of air supply.

Smart cleaning

Press the Clean key and the dust on the surface of the fins will be removed by the rapidly flowing condensate and the surface can be kept clean.

ECO Mode

With ECO function, the air-conditioner can ensure the refrigeration in low frequency to realize low electricity consumption. The wall-mounted air conditioner saves 30% of electricity, while the cabinet-type air conditioner saves 20%.
